EXPERIENCE

Product Designer

Venngage — Toronto, ON

May 2017 - Present

- Venngage is an online graphic design platform that helps users create beautiful infographics, reports, data visualizations.. etc.
- Works in cross-functional teams to oversee the user experience of a product from conception until launch.
- Facilitates squad stand ups, demos, retrospectives, planning and all-hands meetings.
- Collaborates with team leads to determine business strategy and build long-term product roadmaps.
- Leads an on-going team of designers and engineers to build a Design System - established design principles, processes, style guide, accessibility rules and UI component library.
- Improved retention and engagement for business users by up to 23% by targetting usability issues and reducing friction.

UX/UI Designer

Freelance — Toronto, ON

November 2015 - February 2017

- Delivered design solutions, branding and logo designs for various websites and mobile applications.
- Conducted user interviews, competitive analysis, journey mapping, wireframing, and user testing.
